

# Spreading in Nature, Technology and Society

DIFFUSION FUNDAMENTALS XI

**June 30 – July 2, 2025**  
**Northwestern University, Evanston, IL, USA**  
<https://diffusionfundamentals11.org>

The conference will bring together an interdisciplinary group of scientists, engineers, and social scientists interested in diffusion and related spreading phenomena.

## Topics of interest include

- Basic principles of diffusion theory and simulation
- Experimental measurements and applications in biology, chemistry, physics, and engineering
- Spreading phenomena in archaeology, ecology, epidemics, linguistics, sociology, etc.

The conference will include invited talks, contributed talks, and posters. Ample time will be given to the poster sessions.

**Location:** Campus of Northwestern University, directly on Lake Michigan, about 20 km from downtown Chicago.

## Important Dates

- January 2025 – Registration opens
- February 1, 2025 – Abstracts due
- March 1, 2025 – Notification of abstract acceptance
- April 1, 2025 – Early registration ends

Sächsische Akademie der Wissenschaften zu Leipzig
